

SKYTRAK

Safety and Product
Information Guide

IMPORTANT:

Please read carefully this Safety and Product Information Guide before setup or use of the SkyTrak™ system. Failure to read and follow the Safety and Product Information Guide may cause serious injury or death.

The SkyTrak system specifications and functionality are constantly evolving, and we may update or change the SkyTrak system in whole or in part, without notice to you. Such updates may be required for you to use new functionality, access new courses or features, or continue to access and use existing courses and features. The courses and features available for use on the SkyTrak system change from time to time, and not all courses or features previously offered will be available. Some features require an annual subscription.

The software in the SkyTrak system is licensed and not sold to you, and is subject to the End User License Agreement set forth in this Guide.

Important Health and Safety Information

Please read the following important health and safety information before using the SkyTrak system. Failure to read and follow this safety information may cause serious injury or property damage.

Proper Setup and Use

Using the SkyTrak system involves swinging a golf club and hitting a golf ball. When swinging the golf club or hitting the golf ball make sure you have ample space to do so without harming others or damaging property, and when indoors, take additional precaution to avoid hitting the ceiling.

- Follow the diagram on page 8 for the minimum setup position of the SkyTrak system. Always use the SkyTrak system in a safe area, away from people, especially small children, as well as away from pets and property.
- When hitting golf balls indoors, including your garage, always use a safety net and a hitting mat which have been specifically designed for golf.
- When hitting golf balls outdoors, use a safety net specifically designed for golf when your ball flight area is restricted, like in the backyard of a residence.

CAUTION: Even when using a safety net, errantly hit balls, like a shank which dramatically deviates from the intended target line, may miss the safety net, potentially causing injury or damage, so adequate precaution should be taken to avoid injuries or damage in the event a hit ball misses the safety net.

To reduce the likelihood of personal injury or property damage, follow these rules when setting up the SkyTrak system for use:

- Place your smartphone, tablet or computer and any playback device like your television, safely away from the hitting area to the side and behind the golf ball.
- All individuals in the area of the SkyTrak system during use, except the one person hitting golf balls, should remain a safe distance away from the hitting area to the side and behind the golf ball.
- Always use a golf hitting mat indoors to reduce the risk of damage to carpeting or other flooring materials, and for optimal performance, it is recommended that a golf hitting mat always be used, both indoors and outdoors.

Before taking each swing while using the SkyTrak system, always first make sure that:

- The path of the golf swing is free of all persons, pets and property,

- The hitting area is secure from individuals, pets, and property, and be especially cautious of individuals and pets approaching the hitting area from behind the golfer,
- Individuals, pets and property are sufficiently away from the hitting area to avoid injury or damage in the event the golfer loses grip of the golf club during a swing, and
- Individuals, pets and property are sufficiently away from the hitting area to avoid injury or damage in the event the golfer miss-hits the golf ball and the golf ball leaves the intended target line and misses the safety net.

WARNING: Failure to follow these setup and use precautions can lead to serious injury or death to persons and damage to property.

Use by Children and Inexperienced Users

The SkyTrak system is designed for adult use and for individuals with some prior golfing experience.

- Use of the SkyTrak system by children should only be done with adult supervision.
- Individuals without golfing experience should be aware of their surroundings and the amount of space needed to swing and hit a golf ball, and should be aware that errantly hit golf balls, like a shank, can dramatically deviate from the intended target line. It is recommended that those without golfing experience first use the SkyTrak system with someone with golfing experience.

Avoiding Water and Wet Locations

Exposure to water may cause damage to the SkyTrak system and electric shock to the user. ***Do not use the SkyTrak system in wet locations.*** Use extra caution when using the SkyTrak system outdoors to avoid getting the SkyTrak system wet from rain, snow, dew, water hoses, and other moisture sources.

DO NOT LEAVE THE SKYTRAK SYSTEM OUTDOORS WHEN NOT IN USE.

Take care not to spill any food or liquid on the SkyTrak system. Do not attempt to dry the SkyTrak system with an external heat source, such as a microwave oven or hair dryer. A SkyTrak system damaged as a result of exposure to liquids is not serviceable.

Charging the SkyTrak System

In charging the SkyTrak system, use only a SkyTrak supplied charger specifically designed for the SkyTrak system. Use of other chargers may cause personal injury and

property damage, including damage to the SkyTrak system.

SkyTrak is not responsible for the operation of third-party accessories or their compliance with safety and regulatory standards.

When charging the battery on the SkyTrak system with an authorized SkyTrak charger designed for use with the SkyTrak system, make sure that the charger is fully assembled before you plug it into a power outlet. Do not connect or disconnect the charger with wet hands.

The charger may become warm during normal use, however the SkyTrak system should never become hot. Always allow adequate ventilation around the charger and use care when handling. Unplug the charger if any of the following conditions exist:

- The power cord or plug has become frayed or damaged.
- The adapter is exposed to rain, liquid or excessive moisture.
- The adapter case has become damaged.
- You suspect the adapter needs service or repair.

Exposure to Radio Frequency Energy

Your SkyTrak device contains radio transmitters and receivers, much like cell phones, pagers and other similar devices. When on, your SkyTrak device sends and receives radio frequency (RF) energy through its antenna.

Your SkyTrak device is designed and manufactured to comply with applicable limits for exposure to RF energy.

Radio Frequency Interference

The SkyTrak system can emit radio waves that can affect the operation of nearby electronics, including cardiac pacemakers.

- Do not use the SkyTrak system within 9 inches of a pacemaker.
- If you have a pacemaker or other implanted medical device, do not use the SkyTrak system without first consulting your doctor or the manufacturer of your medical device.

Additional Information

For more information from the FCC about exposure to RF energy, see: www.fcc.gov/oet/rfsafety

The FCC and the U.S. Food and Drug Administration (FDA) also maintain a consumer website at www.fda.gov/Radiation-EmittingProducts/default.html to address inquiries about the safety of radio emissions. Check the website periodically for updates.

To the extent this License Agreement includes the licensing of Software or other components also licensed in connection with a SkyTrak Subscription Plan (which includes access to SkyTrak premium services like course maps, training games, tournaments and advanced features besides the basic driving range), you will lose access to such Software and other components (including any SkyTrak course maps downloaded to your SkyTrak device as well as any scores, statistics and other information you have stored on your SkyTrak or SkyGolf 360 account) on expiration of the term of your SkyTrak Subscription Plan if not timely renewed. - a. Subject to paragraph 5 below and the other terms of this License Agreement, you are granted a nontransferable, non-exclusive license to use the SkyTrak Software under the terms stated in this License Agreement and, if purchased separately, the terms stated in your SkyTrak Subscription Plan License Agreement for solely personal noncommercial use in connection with the single SkyTrak Product.
